# Ruth Play-Off Will Begin Friday At Carver Park

By BONNY VARNER

The 1958 Babe Ruth play-off will begin Friday afternoon at 1 p.m. at Carver Park, featuring Carver, American Legion and Trenholm Court.

This will be the third year for the Ruth play-off. The Montgomery teams won the regional play-off last year. This year the tournament will be played in Panama City Fla., and Montgomery will send the best players of the team to Florida.

Some of the top players in the last year's tournament, from Trenholm Court, were James Adams, James Price, C. Moutier, Eugene Jeter, and from Carver Park Freddie McDade, Frank Coleman, Willie Harris, W. Smith, S. Sankey and W. Jackson.

MEN'S LEAGUE

The 1958 American and National League play-off in the Men's softball league will begin on Thursday, July 24.

The two top teams from the American League Champions will be WRMA and, second team Raiders. From the National Legue Champion will be Trenholm Court- A. J.'s and second place, College All-Stars.

Teams playing will be Trenholm vs Raiders and the College All-Stars' vs WRMA. The winners will meet Tuesday night of next week in the final game of the play-off.

Last year's champions were Raiders first and Trenholm Court, second place.

Fans of the community will get a chance to see four of the top ball teams in action this Wednesday night, at Hornet's Stadium. They are Citizen Club vs Montgomery Yanks and Trenholm Ct. Black Label girls' softball vs Carver Josten Jewels. Citizens and the Yanks are both leading teams in their league; Trenholm Black Label is only a few points ahead of the Josten Jewels. It should be a night to remember.

SPONSORS DANCE

Trenholm Court Girls Black Label softball team will sponsor a dance at Gordon's Patio, Monday night. All teams are invited. Coach Rainey Varner will be there to greet the parents and managers of the cooperating teams.

Members of the league are King Hill, Oscar Joseph, manager; Waugh, managed by Frank McDade; Carver, Josten Jewels, manager is Mrs. Nora Daniel; Mutteretts' manager is James Herd; Wetumpka's manager is Eddie Jackson and the T. C. Black Labels will be there, along with the members of the Montgomery Yanks' team.

# Northside Pool For Negroes Needed

Birmingham has two swimming pools for its Negro citizens—the Tuxedo pool on the west side of town and the newer Memorial Park pool on the Southside, constructed at a cost of some $175,000 including the community center. It has long been recognized by the Park and Recreation Board and other civic leaders that another pool is needed for Negro citizens living in the northern and eastern sections of the city.

This week a delegation of Negro citizens representing the Young Men's Citizen Group of North Birmingham petitioned the Park and Recreation Board to build a swimming pool and a gymnasium in North Birmingham's Maclin Park for members of their race. Members of the board are known to be sympathetic to this request. Some four years ago when an extension of park facilities was being considered the board expressed the hope that eventually it would be able to construct a pool for Negroes in either an eastern or northern area. Construction costs, however, have been going up, as everybody knows, and the Memorial Park community center and pool, costs of which were contemplated originally at some $125,000, actually cost around $175,000.

The Park and Recreation Board is not in a financial position to accede to the North Birmingham petition immediately. But King Sparks, superintendent of the Park and Recreation Board, is hopeful that his department, in cooperation with the City Board of Education, can make the gymnasium facilities of Hudson School on Huntsville Road available during the summer for the use of Negro citizens in the North Birmingham area. Mr. Sparks points out that Negro citizens in that area, in addition to having the recreational facilities of Maclin Park also have the community center and other facilities at Slossfield Park on 21st Street, North, and 26th Avenue. While Slossfield does not have a pool, it is well equipped in other respects and is the location of organized recreational programs.

The need for a pool for Negro citizens on the Northside is generally recognized. The money for one is not available immediately, but members of the board hope that provision for such a pool can be made in the board's budget for the next fiscal year. We hope so.

In upholding deeply rooted segregation convictions and customs, the most feasible progress should be sought toward providing adequate public facilities of this kind for Negroes.

This community needs more park and recreational facilities for both its white and Negro citizens. Better facilities of this order is a goal toward which we should continue to work.

## A Pool For Negroes

*The [Jasper] Mountain Eagle*

THE city of Jasper is to be commended for its action in constructing a public swimming pool for colored people. The authorities have been cognizant of the fact all along that public recreational facilities for people of two distinct races is unwise and trivial things can cause a race riot; swimming pools for both white and Negroes have caused race riots in St. Louis and elsewhere. Yet, the Negroes were entitled to a swimming pool.

So anxious were the colored children to get into the water as soon as construction work was completed on the pool, that they didn't wait for it to fill up before they were wading in shallow water.

# Citizens Group Petitions For A North Birmingham Swimming Pool

James Craig, Jr., president of the 20-member Young Men's Citizens Group of North Birmingham which petitioned the Birmingham Park and Recreation Board to provide expanded facilities, including the construction of a swimming pool at North Birmingham's Maclin Park, June 25, declared that "We have no intention of getting into the integration fight". We feel children are deprived of swimming privileges, and for these reasons we are bringing our problem to you."

Craig added, "Our request was based upon community services which the Birmingham Park and Recreation Board should provide."

The BPRB told members of the group that it would take the request for the pool under study. It also said that it would confer with the Board of Education to see if the gymnasium of nearby Hudson School might be used as a community center during the summer months.

Birmingham has two swimming pools provided for Negro citizens—the Tuxedo pool on the westside of town in Ensley and the Memorial Park Center pool on the southside in Tittusville.

Here is a copy of the letter which the YMCG of North Birmingham petitioned the park and recreation board:

3120 29th Avenue, North
Birmingham, Alabama
June 25, 1958

The Birmingham Park and
Recreation Board
City Hall Building
Birmingham, Alabama
Gentlemen:

"The Young Men Christian Group of North Birmingham, a group organized for the purpose of improving the area for the betterment of its residents, has as its project the problem of recreational facilities."

"We are submitting for your immediate consideration a signed petition of more than 1,000 residents asking for a swimming pool on Maclin Park, located at 2700 North Huntsville Road to serve the many youth of this section."

"The nearest swimming pool available to Negroes of this area is located on Sixth Avenue, South approximately six (6) miles from North Birmingham; too far away for small children to visit unchaperoned due to the distance and means of transportation; and not large enough to accommodate both the North and South sides of greater Birmingham. Therefore, our children are deprived of swimming privileges, and for these reasons we are bringing our problem to you."

"The members of the Young Men Citizens Group of North Birmingham are available to you at any time. We appreciate your interest and cooperation with us, and look forward to your approval."

"Thank you."

Respectfully submitted,
JAMES CRAIG, JR.
Vice-President
The Young Men Citizens
Group of North
Birmingham

# Negroes Dedicate $250,000 Center

MOBILE, Ala., Dec. 17 (UPI)—A modern recreation center for Negroes, costing $250,000 and covering two city blocks, has been formally dedicated and opened here.

The New Harmon Park, which first entered the city park system 40 years ago as a cleared field, will provide Negroes with a gymnasium, auditorium, game and club rooms and regulation-size, lighted football, baseball and softball fields.

The center will have a seating capacity of 850 persons in the combination gym-auditorium. It is expected to be used for Negro dances, civic functions and conventions.

# Trenholm Recreation Park Schedules Youth Program

By SAMUEL HUFFMAN

The Trenholm Court Recreation Park will be the scene of a variety of wholesome summer activities for the youngsters during the months of July and August, according to Rainey Varner, playground supervisor.

An effort has been made to schedule activities that will appeal to youngsters at all age levels and provide a place for the youngsters to spend a couple of hours of worthwhile time each day, stated Varner.

The schedule of activities call for two dance nights a week through August. The dances will be held on Tuesday and Thursday nights with parents in the Trenholm Court apartments serving as chaperones. Dance hours are 7 to 9:30 p.m.

For the kiddies, popular cartoons will be shown twice a month. The dates for the movies are the first and 15th of each month. During August a series of adventure films will be shown along with the regular cartoons.

For the athletic-minded youngsters, Little League games will be held on Monday and Friday afternoons. Girls' softball games will be played each Wednesday afternoon.

The larger boys will have an opportunity to participate on Tuesday and Thursday afternoons in the men's softball league. Upper Teen baseball is also scheduled during the week and on Saturday and Sunday afternoons.

Other activities scheduled include horseshoe, ping pong, and checkers.

A hayride will conclude the summer activities at Trenholm Court. The hayride is scheduled for the last week of August.

# New Playground Acquired As Result Of Hard Work

The opening Wednesday, July 2, and success of the venture of the Day Street Recreation Center is due to a large degree to the work of Miss Ozetta Matthews, who conceived the idea while watching the Program "Ens of the Rainbow".

After corresponding with the officials concerning the use of the lot on Day street, she was granted a hearing with her committee members March 5, Mrs Annie F. Williams, Mrs. Ruth Tate and Miss Matherine Freeman, they secured only a promise of a fence and repairing of rest rooms. Everyone then began making plans to raise money for equipment and a tea was given at the Baptist Center where $165 was raised, with a large part of the success of the affair going to Mrs. Inez J. Baskin, for excellent publicity given by newspaper and radio.

Mrs. Mattye E. Scott, a tireless civic worker, joined the group and was asked to serve as chairman. Mrs. Scott sponsored another tea, where the following persons raised sums indicated: Mrs. Annie F. Williams, $106; Mrs. Matherin Freeman, $4, and $18.68 worth of equipment; Mrs. Aurelia Young secured from Peoples Market, $6.98 plus $10.

Other donations included: Mr. and Mrs. Rayfield Matthews, of Matthews Tavern, a baseball outfit; decorating grounds, Mrs. Bertha Williams; making some of the equipment; Mrs. Ruth Tate for making church contacts by letters and receiving $8.35 from Lily Baptist, The Rev. W. J. Fields, pastor and $2.50 from Bell Street No. 2, The Rev. C. W. Wilkerson, pastor. ABC Printing Company, donated its services of printing letters to churches.

Also Heilpern Insurance Company, $10; Young's Grocery and Market, $5; Hull's Fish Market donated fish for fish fry; Foremost, and Cooks ice cream; McGlynnn Paper and Candy Company, cookies; Progressive Cleaners, Kennedy Grocery and Market and Park 'N Shop, these three furnished refreshments.

The supervisor, Miss Ozetta Mathews is asking for the continued cooperation of the public on this project as many more things are needed.

# Center For Negroes Dedicated At Mobile

## All Types Of Recreations Will Be Provided

MOBILE, Ala., Dec. 14.—(UPI)—A quarter-million dollar recreation center for Negroes was dedicated here Sunday on the site of a 40-year-old playground which entered the city park system as a cleared field.

The new Harmon Park center will provide Negroes in South Mobile with a gymnasium, auditorium, game and club rooms, and regulation size football, baseball and softball fields.

Night sports will also be possible at the ultra-modern recreation center under the most advanced lighting system in the city.

Numerous recreation and civic officials, including city Commissioner Joseph N. Langan, spoke at the dedication of the new facility.

The center will have a seating capacity of 850 persons in the combination gym-auditorium. It is expected to be used for Negro dances, civic functions and conventions.

One section of the park was set aside for future construction of an elementary school, which will use the facilities for its playground area. The park is two blocks from Williamson School, now being expanded to house both a senior and junior high school.

# Recreation Center For Negroes Dedicated

MOBILE, Dec. 14 (UPI)—A quarter-million dollar recreation center for Negroes was dedicated here today on the site of a 40-year-old playground which entered the city park system as a cleared field.

The new Harmon Park Center will provide Negroes in South Mobile with a gymnasium, auditorium, game and club rooms, and regulation size football, baseball and softball fields.

Night sports also will be possible at the recreation center.

Numerous recreation and civic officials, including City Commissioner Joseph N. Langan, spoke at dedication of the new facility.

"This is a fine facility," Langan said. "We of the city commission feel it will render a fine service to the people of the area and are very happy to work with them in providing an adequate recreation facility."

The center will have a seating capacity of 850 persons in the combination gym-auditorium. It is expected to be used for Negro dances, civic functions and conventions.

The center also has a large game room and another room which will be used for a recreation program for pre-school children.

One section of the park was set aside for future construction of an elementary school, which will use the facilities for its playground area. The park is two blocks from Williamson School, now being expanded to house both a senior and junior high school.

Mrs. Martha Maitre, city recreation director, said an organized recreation program will be provided.

# Whites Turn Park Over To Negroes

Defender p.8

North Little Rock, Ark. (ANP) — What started out last week as a discussion between a group of Negroes and the city parks and recreation committee on leasing of a swimming pool in Sherman park to Negroes, ended with the commission creating a Negro board and authorizing it to operate not only the swimming pool, but the entire park as well.

Originally, the meeting had been called to discuss leasing the pool to some Negro organization, but the idea of transferring authority ot a board, with representatives or several groups, was adopted as a better plan. The park is patronized largely by Negroes. The pool and a softball diamond are the only improvements in the park.

Chairman of the board is Bishop O. L. Sherman, for whom the park was named. Bishop Sherman heads the 12th AME district, which comprises Arkansas and Oklahoma. Vice Chairman is Roland A. Smith.

Other members are Rev. M. S. James, president, North Little Rock Civic league; E. E. Benton board chairman, East End Boys club Boyce Johnson and Mesdames Marie Donn, Mary Ray Effie Molman and Rosa Ruffin.

# William S. Hart Estate To Be Made Interracial Park

Daily World Pg.
Atlanta Ga.
Date: 4-17-58

LOS ANGELES. — (ANP) — Remembering how certain heirs of the late William S. Hart, famed cowboy movie star, have fought against the clause in his will ordering a public park created, with Negroes especially welcomed, local citizens are happy that Los Angeles County supervisors have carried out his bequest.

Supervisor Warren M. Dorn has approved plans for alterations to buildings at the Wm. S. Hart Park, Newhall, and asked that April 30, be set for the opening of bids at the County Engineer in Los Angeles.

Improvements to the property, as proposed, involve the installation of new heating ducts in the former residence of the silent motion picture star; alterations to his former chauffeur's quarters in the garage building; the installation of partitions and other miscellaneous work in the former ranch house building. Exterior work entails the installation of a new gas line to serve the existing residence and garage building.

Cost of the alterations and additions to the several buildings is estmated by the County Engineer at $20,433, Supervisor Dorn said.

# Citizens Develop Bethune Beach

DAYTONA BEACH, Fla. — Th zooming State of Florida has add ed another famous beach to its ros ter of famous beaches. Severa years ago, under the leadership o Dr. Mary McLeod Bethune, a group of public spirited citizen purchased a large tract of bar oceanfront property and developed it into the now famous Bethune Beach.

Bethune Beach, located in the world famous Daytona Beach area lies for 2 1-2 miles directly on the Atlantic Ocean and 2 1-2 miles on the Indian River North, it's the only development of its kind in the United States.

The same organization which was started by Dr. Bethune is still working to make this beach ever better and ever more famous for its year 'round living and health-giving enjoyment for those who seek the better things in life.

**MANY LOTS**

Lying on a peninsula, like other famous Florida beaches, Bethune Beach was subdivided into over 3,000 lots. Today, there are a number of beautiful beach homes, a large motel and apartment house and a pavilion for the use of the general public. Florida's famous paved oceanfront highway, Route A1A, runs right through the property, making it easy to get to from any point in the country.

That this is a year 'round place to live and to enjoy oneself is undeniable. The area is host to thousands of people from all over the country throughout the winter months and the summertime, too.

Being in the sub-tropical zone, it boasts one of the best climates in the world — warmer in the winter — cooler in summer.

Throughout the entire length of the development lies the hard, glistening, white sand beach and a panorama of clear and clean Atlantic Ocean waters, offering beach sports, boating and swimming.

**GOOD FISHING**

The area is noted, too, for its fine fishing either in the ocean or in the Indian River North, and the runs of fish affords good catches of trout, bass, bluefish, snapper and flounder as well as an inumerable number of other species throughout the year.

While much has been said about race relations throughout the country, Florida, and this area in particular, cannot be considered as a part of the South and its customs. The influence of Dr. Bethune and Bethune-Cookman college, which she also founded, together with the hundreds of thousands of northerners who have made the state and made this their home, have made Florida almost a branch of the northern states.

For years, Florida has been considered as below the South. In fact the restrictions prevalent in most other southern states were voluntarily abolished long before any of the race cases ever were instituted in other areas.

**WHO'S WHO OWNERS**

Over 2,000 lots have already been sold and a large number of owners may be found in Who's Who. Though there has been a tremendous increase in land values within the past few years, a Special Sale has been instituted by the company.

Lots can now be purchased at a fraction the price of comparable lots in adjacent beaches and on most attractive terms. A limited group of lots are now being offered at the low price of $590 for a pair, side by side.

Some of these lots are the finest in the entire development. There are also some outstanding ocean-front lots with private beaches, riverfront lots directly on the Indian River North and business sites along the ocean highway at fractional prices and low terms.

Information as to the purchase of lots can be secured directly from the company's office which is located at 805 Second ave., Daytona Beach, Fla., telephone — Clinto 2-5022, or by writing to Bethune-Volusia Beach, Inc., P. O. Box 805, Daytona Beach, Fla.

# Bethune Beach Is South's Newest Scenic Wonderland

DAYTONA BEACH—The State of Florida has added another famous beach to its roster. Several years ago, under the leadership of Dr. Mary McLead Bethune, a group of public-spirited citizens purchased a large tract of bare ocean front property and developed it into the now famous Bethune Beach.

Bethune Beach, located in the world-famous Daytona Beach area, lies for 2½ miles directly on the Atlantic Ocean, and 2½ miles on the Indian River North, and is the only development of its kind in the United States. The same organization which was started by Dr. Bethune is still working to make this beach ever better and ever more famous for its year 'round living and health-giving enjoyment for those who seek the better things in life.

Lying in a peninsula, like other famous Florida beaches, Bethune Beach was subdivided into over 3,000 lots, Today, there are a number of beautiful beach homes, a large motel and apartment house and a pavilion for the use of the general public. Florida's famous paved ocean front highway, Route AIA, runs right through the property, making it easy to get to from any point in the country.

**THAT THIS** is a year 'round place to live and to enjoy one's self is undeniable. The area is host to thousands of people from all over the country throughout the winter months and the summertime, too.

Being in the sub-tropical zone it boasts one of the best climates in the world—warmer in winter—cooler in summer. Throughout the entire length of the development lies the hard, glistening, white sand beach and a panorama of clear and clean Atlantic Ocean waters, offering beach sports, boating and swimming. NEW TOWN AND COUNTRY CLUB MEMBERS — Members of the Pine Acres Town and Country Club look over plans for the development of their recently purchased 58-acre estate into a private Country Club with renovation to exceed $200,000. Members are (front row—left to right): Haynes Pressley, James E. Gilbert, Marvin Manghuam, C. Clayton Powell, Charles T. Bell, Joe Bickers, J. W. Robinson, A. L. Jackson, Brady Cooper. (Back row—left to right); Charles Goosby, H. L. Greenwood, businessman, H. W. Robinson, H. W. Welchel and H. T. Russell.

# Atlantans Organize New Pine Acres Town And Country Club

Another first in Atlanta! A group composed of a cross-section of young, progressive-minded business and professional men in the city have banded themselves together into a social organization to be known as the Pine Acres Town and Country Club.

The specific purpose of the club is for the social and recreational entertainment of the members families and themselves.

If the story stopped here, this club would fall into the category of all other social clubs in the city of Atlanta, but it does not stop here, it goes one step further. These progressive-minded young men have purchased a 58-acre estate to be developed into a Country Club. Located just 20 miles outside the city of Atlanta which has on it a 5-acre lake and a furnished club house. The total cost of the estate with proposed renovations which are in process will run in excess of $200,0000.

Members of the club are C. T. Bell, Real Estate Broker; J. T. Bickers, Real Estate Broker; Dr. Brady Cooper, Pharmacist; James E. Gilbert, Manager High Point Apartments; K. B. Hill, Financier and owner of Hopkins Book Concern; A. L. Jackson, Contractor-Builder; Marvin Mangham, Accountant-Insurance Broker; Dr. C. Clayton Powell, Vision Specialist; J. W. Robinson, Architectural Engineer; H. J. Russell, Mason-contractor; S. J. Sellers, Funeral Director; Val Sheppard, Superintendent Buildings & Grounds, Perry Homes; R. E. Thomas, Jr., Attorney; Dr. H. W. Whelchel, Chiropractor; J. P. Hampton, Pullman Porter; H. L. Greenwood, Businessman; T. E. Mattison, Owner Mattison Gulf Service Station; E. D. Billingslea, Principal; Haynes Pressley, Sales Representative, Miller Brewing Co.; William Neeley, Clerk, United States Post Office; Dr. H. W. Robinson, Dentist; Dr. Charles F. Goosby,

# Negro And White Communities Conduct Joint Skate Project

Daily World p.

LOUISVILLE, Ky. — (UNPA) — A bold experiment is currently being conducted at the Buechel Armory by the residents of the communities of Buechel and Newburg.

The recreation committees of the two communities—one colored and one white — have set up a central committee to administer to a recreation center at the Armory.

Active since last Feb. 12, the central committee is sponsoring skating for young people under the jurisdiction of the Jefferson County Playground and Recreation Board.

To begin the program, the group — which consists of four white members and three colored members—borrowed $1200 from the bank and bought skates from the former concession owners. The loan is being repaid at the rate of $106 a month out of the 50-cent admission and 10-cent rental fees.

Organized to provide a recreation outlet for the youth of the two communities, the venture is a non-profit making one that will result in other activities being added as the loan is paid off.

The white committee members are Leon Loser, Dennis Lynch, George Sanderson, and Henry Scott, chairman, all of Buechel. The Negro members are Worden Dorsey, Jerry Lucas and Edward Bryant of Newburg.

According to Bryant, the cooperation between the communities is living proof that brotherhood can be made to work year-round instead of just being given lip service one week of the year.

# McKeldin Says Parks Lag Behind Population

HAGERSTOWN, Mar. 8 (AP). Gov. McKeldin said today Maryland's parks and recreation program has almost kept pace with the needs of a rapidly increasing population.

He told the seventh annual Governor's Conference on Recreation and Parks that according ot a sliding scale graded on population, the State should have 16,690 acres in parks and actually has 15,5[illegible]

"In forests," the Governor said, "we should have 158,481 acres and on March 1 we actually had 119,054."

**3 Million Population Seen**

Until World War II, Mr. McKeldin said, Maryland's population increased at a steady rate of about 20,000 a year or 200,000 [illegible]

"But the census of 1950 showed a tremendous leap of 522,000, and all the evidence indicates that the census of 1960 will show an increase fully as large and probably larger. A total population of 3 million in the next census would astonish no one."

But that isn't the entire story, the Governor added.

"Within the geographical boundaries of Maryland is another population of 800,000 not included in the census figures. This is the city of Washington. In estimating our needs by 1960 we should, therefore, figure that we must serve a total population of nearer four millions than three millions."

**Reservations About Growth**

Some people, while usually not admitting it, have reservations about the rapid growth of the State, he said, adding:

"Their attitude is not entirely without reason. Mere growth, in and of itself, is not necessarily a good thing. A cancer grows, and if its growth is not checked in the end it kills its victim.

"If we in Maryland were merely passive, the growth of the State's population would simple overcrowd our facilities, making life worse, not better, for everyone concerned."

**Explains Recreation**

When we refer to recreation, Gov. McKeldin said, we often do not give enough attention to the origin of that word.

"We associate it with pleasure, which is true enough, but not the whole truth. It also means literally to 're-create,' that is, to take a human wreck and make it into a man or woman again, a member of society once more capable of working for, not against, the common good."

# Ask court halt sale of Harlem Pk. area

BALTIMORE

Harlem Square was deeded to the City March 30, 1860 by the late Dr. Thomas Edmondson upon the condition that it would be used as "a public square forever."

**Relying on this condition of the Edmondson gift and the acceptance by the Mayor and City Council of Baltimore in 1868, the Harlem Park Home Owners Association and 96 residents of the area filed suit in Circuit Court Thursday asking:**

(a) That the Park Board be restrained from selling the eastern half of Harlem Square to the School Board.

(b) That it be enjoined from excluding the public from the eastern half of the square.

(c) That the transfer of any part of the square by the Park Board individually to the school board be declared illegal.

* * *

**DEFENDANTS** in the suit are the Board of Recreation and Parks individually, and its superintendent, R. Brooke Maxwell;

**Also, the Board of School Commissioners and Dr. John H. Fischer, superintendent; and the Mayor and City Council of Baltimore.**

Attorneys representing the Improvement Association and the 96 citizens are Juanita Jackson Mitchell, James L. Bundy, James W. McAllister and Tucker Dearing.

**THE COMPLAINT** alleges that:

(1) The Park Board on March 1, 1957 voted to sell a portion of Harlem Square to the Department of Education for a junior high school and use the funds received for park purposes.

(2) The Mayor and City Council have authorized the School Board to place schools on this site.

**(3) The sale of this public square would violate the conditions of the Edmondson gift and destroy a substantial part of the trust established under it.**

(4) The sale violates the City Council ordinance accepting the Edmondson gift and the City Charter.

(5) The sale of park property deprives the plaintiffs and other citizens of the right to enjoy a public park, is unlawful and against public policy and infringes on their constitutional rights.

* * *

**AN INTIMATION** that the Park Board may have recognized possible error in the sale of a portion of Harlem Square was noted in its recent meeting.

There, it is said, the board was made aware that unless the courts revoked conditions of the Edmondson gift, heirs of the late Mr. Edmondson might properly sue to have the entire square reverted to them.

**Edmondson heirs are reported as living in England and owning ground rents in the Harlem Square area.**

Plans of the School Board several years ago to secure Harlem Park for a school were reported nuffified by a ruling of the then city solicitor that such action would be a violation of the conditions of the Edmondson gift.

The 96 signers of the petition are:

Harlem Park Home Owners' Association, Leroy E. Jones, president; Addie P. Howard, Marque Hilliday, Lois Holliday, Clarence Isler, Esther Isler, John Taylor, Ella Brown, Sadie Brown, Lillian Brown, Isabelle Brown, Sydney Rowlett, Edmond Rowlett, Elsie Roberts, Joseph Commodore, Bertha Commodore;

Also James B. Rucker, John H. Rucker, Susie Rucker, Beulah C. Caldwell, Leona Adams, Milton Brown, Elsie Spruel, William Armstrong, Charles Armstrong, Ophelia Maddox, Herman Maddox, Thornton Scorggins, Mamie Smith, Vincent Butler, Franklyn L. Wilson, Vietta Wilson;

## White Family Donates $30,000

# Goldsboro Residents To Get New Swimming Pool

GOLDSBORO, N. C. —The Goldsboro Recreation Commission was advised last week by the Goldsboro Board of Aldermen to proceed with its plans to construct a swimming pool for colored residents of the city.

The order followed an offer by a white family to provide $30,000 for the pool's construction.

• • •

**UNDER TERMS** set forth in the family's offer, the city is to connect the pool to water and sewage facilities and to provide a site from Dillard High School property now owned by Goldsboro Graded Schools.

The bathhouse is to be provided by colored citizens. Rev. B. R. Richardson, pastor of Shiloh Presbyterian Church has been chosen to head a drive to raise some $8,000 toward the construction of the bathhouses. Funds raised will go for materials and labor is to come from Dillard Vocational classes.

• • •

**FINAL APPROVAL** of the pool was withheld by the board until the specifications and blue prints have been prepared by architects and are ready for a call for bids.

H. F. Lee of the Recreation Commission told the board that architects Billy Griffin and Conrad Wessell have agreed to draw plans for the pool without charge. He said, he knew of another architect who would probably agree to supervise construction without charge.

W. A. Foster, principal at East End School, and spokesman for a delegation appearing before the board, said an organization to raise funds for bathhouses had been set up and money is to be solicited in the near future.
